## Life after leaving Dutton Lab

# Bruce Lichtenstein

## Professional Life

Postdoctoral Research Assistant at Oxford University, UK

- Studied selective modifications of protein backbones

Postdoctoral Fellow at Max Planck Institute of Developmental Biology, Tübingen, and University of Bayreuth, Bayreuth, Germany

- Established a new research program on engineering protein transporters  
(Shared a Masters student with Ross)

- Designed cofactor binding protein chimeras constructed from binding naïve fragments
- Explored synthetic fluorophore binding in *de novo* bundles

Presently looking for Independent Position

# Bruce Lichtenstein

## Personal Life

Improved my French (moderately)

Learned just enough German (badly)  
and traveled...

Austrian Alps

Bristol

Berlin

Brussels

Lausanne

Franconian Switzerland

Jungfrau
